

# HanneFDA-XP

<b>Cover Type:</b>	Special polyurethane	
<b>Hardness Range:</b>	60, 70, 80, 90 Shore A	
<b>Available Colours:</b>	white	
<b>Recommended Cover Thickness:</b>	min. 4 mm - max. 25 mm	
<b>Temperature resistance:</b>	Dry:	continuous 70°C / peak 90°C
	Wet:	continuous 50°C / peak 60°C
<b>Properties and advantages:</b>	Excellent mechanical properties. Very good chemical and agent resistance properties used in tobacco, food and drug processing, wet and dry environment. The covering quality has regulatory compliance for food, wet and dry, contact. FDA certification 21CFR 117.260. EN1935/2004	
<b>Specific characteristics:</b>	Food approved	
<b>Chemical resistance:</b>	Acid solutions:	Moderate
	Alkaline solutions:	Good
	Hot water and steam:	Moderate
	Ozone:	Good
	Oil and grease:	Very good
	Aromatic solvents (toluene, benzene,...):	Moderate
	Chlorinated solvents:	Not suited
	Polar solvents (MEC, ether, acetate,...):	Not suited
	Alcohols (ethanol, IPA,...):	Good
	Ageing resistance:	Very good
