

Hannecard Exhibitor at ICE Europe 2011

Dear customer

ICE Europe 2011 - International Converting Exhibition - is taking place from 8 till 10 November in Munich, Germany. Over the last few years this exhibition has become the reference in the converting business and a valuable source of information to your field of activity.

Hannecard will be in attendance at booth #136 – Hall B6 of our latest innovations, the ideal reason to come and meet us at our booth :

- Non-black and yet antistatic ? Now possible thanks to ClearFoil and ClearCoat
- Flexolys-Foam compressible covering for winding delicate substrates
- HanneRelease PU solutions : antistatic with high-release behaviour
- DuoStar double layer coating for vibration-free high speed winding
- HanneResist-DL first stable PU covering quality for direct load ESA gravure printing

We are looking forward to welcome you at the show and present to you our full product range which has proven its ability to fulfill the needs hundreds of converters worldwide.

Looking forward to meet you there !

Best regards

The Hannecard Team
