

Resistex-XPE

Cover Type:	Rubber
Hardness Range:	55, 70, 90, 95 Shore A
Available Colours:	black
Recommended Cover Thickness:	min. 12 mm - max. 20 mm
Temperature resistance:	Dry: continuous 130°C / peak 140°C Wet: continuous 80°C / peak 90°C
Chemical resistance:	Acid solutions: Excellent Alkaline solutions: Very good Hot water and steam: Very good Ozone: Very good Oil and grease: Moderate Aromatic solvents (toluene, benzene,...): Not suited Chlorinated solvents: Not suited Polar solvents (MEC, ether, acetate,...): Not suited
