

<b>Cover Type:</b>	Composite	
<b>Possible applications:</b>	Wire, Felt and Sheet rolls (Breast, forming, table, guide... rolls)	
<b>Hardness Range:</b>	90 Shore D	
<b>Available Colours:</b>	grey	
<b>Recommended Cover Thickness:</b>	min. 5 mm - max. 15 mm	
<b>Temperature resistance:</b>	Dry:	continuous 110°C / peak 120°C
<b>Properties and advantages:</b>	Doctorability Improved wear resistance in comparison to rubber covers High temperature resistance	
<b>Doctoring:</b>	Steel, fiberglass or plastic blades	
<b>Possible surface design:</b>	Possibility of helicoidal, parallel or chevron grooving	
<b>Chemical resistance:</b>	Acid solutions:	Excellent
	Alkaline solutions:	Very good
	Hot water and steam:	Excellent
	Ozone:	Excellent
	Oil and grease:	Very good
	Chlorinated solvents:	Good
	Polar solvents (MEC, ether, acetate,...):	Good
	Ageing resistance:	Excellent
<b>Recommended cleaning products:</b>	Good resistance to standard chemicals normally used in paper machines	
<b>Remark:</b>	Reference list available on demand
