

Titan AS II

Cover Type:	Composite
Possible applications:	Paper Sheet Roll
Hardness Range:	90 Shore D
Recommended Cover Thickness:	min. 5 mm - max. 15 mm
Temperature resistance:	Dry: continuous 110°C / peak 120°C
Properties and advantages:	DoDoctorability Improved wear resistance in comparison to rubber covers High temperature resistance Ideal if problems of static electricity
Specific characteristics:	Antistatic
Doctoring:	Steel, fiberglass or plastic blades
Possible surface design:	Possibility of helicoidal, parallel or chevron grooving
Chemical resistance:	Acid solutions: Excellent Alkaline solutions: Very good Hot water and steam: Excellent Ozone: Excellent Oil and grease: Very good Chlorinated solvents: Good Polar solvents (MEC, ether, acetate,...): Good
Remark:	Reference list available on demand Good resistance to standard chemicals normally used in paper machines
