

| | |
|-----------------------------------|--|
| Cover Type: | Special rubber |
| Possible applications: | Compounds for textile wet finishing & sizing applications: sink roll, outlet roller, feeder roll, foulard squeeze roll and handwheel for band saw machine Diverse applications in a lot of industrial areas within the textile industry |
| Hardness Range: | 80 Shore A |
| Available Colours: | brown |
| Properties and advantages: | Compound developed for starching/sizing applications High stability of hardness Perfect chemical stability (no swelling) Temperature resistance up to 110°C |
