

|                              |  |                              |
|------------------------------|--|------------------------------|
| Cover Type:                  | Special polyurethane   |                              |
| Possible applications:       | Marking press on cigarette paper machine   |                              |
| Hardness Range:              | 3, 5 PJ  |                              |
| Recommended Cover Thickness: | max. 15 mm   |                              |
| Temperature resistance:      | Dry:   | continuous 80°C / peak 110°C |
| Chemical resistance:         | Acid solutions:  | Moderate                     |
|                              | Alkaline solutions:  | Moderate                     |
|                              | Hot water and steam:   | Very good                    |
|                              | Ozone:   | Very good                    |
|                              | Oil and grease:  | Good                         |
|                              | Chlorinated solvents:  | Not suited                   |
|                              | Polar solvents (MEC, ether, acetate,...):  | Not suited                   |
| Remark:                      | - reference list available on demand - good resistance to standard chemicals normally used in paper machines |                              |
