

HannElast-S

Cover Type:	Rubber
Hardness Range:	45, 50, 53, 70 Shore A
Recommended Cover Thickness:	min. 10 mm - max. 30 mm
Temperature resistance:	Dry: continuous 70°C / peak 80°C
Properties and advantages:	High resistance to abrasion Very good grip properties Excellent in contact with water
Chemical resistance:	Acid solutions: Not suited Alkaline solutions: Not suited Hot water and steam: Not suited Ozone: Moderate Oil and grease: Not suited Aromatic solvents (toluene, benzene,...): Not suited Chlorinated solvents: Not suited Polar solvents (MEC, ether, acetate,...): Not suited Alcohols (ethanol, IPA,...): Not suited Ageing resistance: Not suited
Recommended cleaning products:	Water, Alcohol
