

Resistex-HP

Cover Type:	Special rubber
Recommended Cover Thickness:	min. 12 mm - max. 20 mm
Temperature resistance:	Dry: continuous 130°C / peak 140°C Wet: continuous 85°C / peak 95°C
Chemical resistance:	Acid solutions: Excellent Alkaline solutions: Very good Hot water and steam: Very good Ozone: Very good Oil and grease: Moderate Aromatic solvents (toluene, benzene,...): Not suited Chlorinated solvents: Not suited Polar solvents (MEC, ether, acetate,...): Not suited
